

Contagion "Ingest"

Visit "[Ingest](#)" on MotoLyrics.com

Your kind your sign
we fight and we stall for time
Your lights your rights
we live and we live to die
Take the line
take your mind
take the line
fight the grind
Your life realize
we take and they blow your mind
Your life decide
take your vision and they leave you blind

Steal your soul or they steal your mind
tear your hole or they feed you lies
Take the line
take your mind
take the line
fight the grind
Steal your soul and they steal your mind
make the hole and ingest the lies
