

Contagion "Scratch"

Visit "[Scratch](#)" on MotoLyrics.com

It's a disease of the mind
Body stops
No definitions left or right
It's a release in the mind
Dark revelations in black and white
Release the pressure that builds within
Scratching scraping breaking shaking
Losing yourself over to them
Ripping tearing when the mind stops the nightmares
begin
It's a life you cannot see
Never touch
Lost in a world you can never believe

Knife cuts but you will not bleed
Body shocks
Trapped by the waves that drown you to sleep
It's a life you cannot lead
Thoughts lost in an endless sea
Release the pressure that builds within
Scratching scraping breaking shaking
Losing yourself over to them
Ripping tearing when the mind stops the nightmares
begin
