"Turn Of The Screw"

I guess by now you owe me a turn of the screw
Here comes the payback for feelin' so good about you
It's not my fault at all I can't get along
It's not your fault no more I can't get along
I'm sure by now I could've been somebody else too
Torn and crippled I might be but I'm not through
It's not my fault at all I can't get along
It's not your fault no more I can't get along

Angels up high
Cut us loose don't ask why
Hand me my wings and I'll fly
(repeat)
The purple leaves have come to take the people away
And in your dreams I saw how I misbehaved
It's not my fault at all I can't get along
It's not your fault no more I can't get along
(repeat last two lines)
