Do you wanna take it?  
You erase my pain  
You rape my mind  
You twist my space  
You make me better  
I take the pills that make me strong  
Adrenaline starts to flow  
My heart beats deep inside my head  
I'm everywhere and you're with me  
I blow the dust of time  
I feel my body is melting in the air  
My feelings are burning inside my brain

I slowly destroying all my cages  
I feel you pierce me inside  
I smell the taste of life  
You kill my fears  
You make me shine  
You push me up  
You are my need  
An unrestrained frenzy control myself  
I'm stronger than all  
No one can stop me and you throw me  
Inside this nightmare of shining lights
