If love is like a roller coaster
Pretty as a circus poster
Would you pay for a day at the fair
I'd like to sit in the very last car
Baby, don't hold onto the bar
Just throw up your hands in the air
Life can be such a scream if you let it
And we're just along for the ride

For the thrill of the flight
Let your heart be your guide
We're along for the ride

We can keep the wheels in motion
Me, I'm not sitting by the ocean
Waiting for ships to come in
I wanna buy you an old ragtop
I want to drive in between the rain drops
Baby, that's where we fit in
Heaven and the road only know where we're going
And we're just along for the ride
For the thrill of the flight
Let your heart be your guide
We're along for the ride

Yeah, for the ride

Baby, love is a dream/Looking for a place to happen
And we're just along for the ride

For the thrill of the flight
Let your heart be your guide
We're along for the ride

For the thrill of the flight
Let your heart be your guide
We're along for the ride

For the ride
