Here she comes she's walking towards me  
And now the one place I want to be  
Is with you hand and hand side by side  
Out of luck because I run and hide

Think about you all the time  
Tried to get you out of my mind  
Hold on a second let me give a clue  
One and one equals me and you

Here she comes walking towards me again  
Problem now is she's with her boyfriend  
Out of jealousy I punched him in the eye  
But he hit me harder all I did was cry

Think about you all the time  
Tried to get you out of my mind  
Hold on a second let me give a clue  
One and one equals me and you
