I've got a broken sky
Miles above
I talk to every night

It used to be the one to say it's all right
Now it's the setting sun

Every part of me is you
Can we make this black sky blue?

Well maybe I wouldn't be so broken-hearted
If you were still here with me

Love is just a disease
I'm taught about it
It only makes me cry

I walk these empty rooms
Half alive
And not the way I knew

Sometimes the silence seems so loud
I hear it in my dreams

Every part of me is you
Can we fill these empty rooms?

Maybe I wouldn't be so broken-hearted
If you were still here with me

Love is just a disease
I'm taught about it

It only makes me cry, ohhh...

Every part of me is you
Can we make this black sky blue?

Well maybe I wouldn't be so broken-hearted
If you were still here with me

Love is just a disease

I'm taught about it
It only makes me cry... oooh...

Maybe I wouldn't
