You think that we can work it out
When you're really not around
Just when I think you lift me up
I swear you kick me when I'm down
And so I give and take
Because I don't know the difference
I'm dead when I'm awake in your world
|
I don't want to tear inside
|
I don't want to tear inside
You think that we can work it out
When you're really not around
Just when I think you lift me up
I swear you kick me when I'm down
And so I carry on
Because I won't know the difference
Where do I belong in your world yeah
|
I don't want to tear inside
|
I don't want to tear inside
Oh you can't wait til the heart is done
You can't wait til the war is won
|
I don't want to tear inside
|
I don't want to tear inside
Inside
Tear inside
