You are not alone,
Open up your arms-embrace the vast unknown.
You're traveling too close,
None of this will matter through a telescope.

I'll make it through another day,
But I feel just like it's yesterday.
All I need to find is all I've got,
And all I'm left behind is an empty lot.

You are, you are okay.
It's all in your mind, it's all alright.
You are, you are okay.
It's all in your mind, it's all right.

All I need to find is all I've got,
And all I'm left behind is an empty lot.

You are, you are okay.

You are, you are okay.
It's all in your mind, it's all alright.
You are, you are okay.
It's all in your mind, it's all okay.

You are, you are okay.
(Make it through another day.)
It's all in your mind, it's all alright.
(I feel just like it's yesterday.)

You are, you are okaaaaaaaay.
