Nowhere to hide, no end in sight  
Been villified because I'm  
Face to face- never join your world of hate  
Face to face- never gonna embrace  
Face to face- the attitude you dictate  
Face to face- with hate  
I've been despised, I've paid the price  
To look at life through human eyes  
Face to face- never join your world of hate  
Face to face- never gonna embrace  
Face to face- the attitude you dictate  
Face to face- with hate  
I know the anger, I know the pain  
I know the story, it's all the same  
What goes around comes around  
Maybe it's time for you to throw in the towel  
Face to face- never join your world of hate  
Face to face- never gonna embrace  
Face to face- the attitude you dictate  
Face to face- with hate
