We get down searching for our freedom
never pleased with what we have
we get down searching for our freedom
looking around with the eyes of death.
We get down searching for our freedom
never pleased with what we get
we get down searching for our freedom
destroying others we hate

We get down, I get down
I'm pointed to the floor
We get down, I get down
be quick I'm getting bored
We get down searching for our freedom
never pleased with what we get
we get down searching for our freedom
destroyng others we hate
