Storm and rise
See the shadow of your destiny
False moving jeopardy all mine
Fake bridges stand in my way
Rising water
Pushing me
Astray
These senses keep
Fading away
Get up make the reason here to stay
Never forget
The day as a dream
A story untold
A sky in a stream
Telling lies
Uprising from faith

Confronting down
Only the dreamers hate
These senses keep
Fading away
Get up make the reason here to stay
Never forget
The day as a dream
A story untold
A sky in a stream
These senses keep
Fading away
Get up make the reason here to stay
Save heartache
And physical pain
End it up
End it up again
