I knew I shouldn't have been  
at the crypt ALONE that night  
But after watchin' faces of death  
my pants were feelin' ,mighty tight

I thought I'd found my perfect love  
So fresh and new and clean  
Just from the research labs  
three towns away

That morning I woke up

With this sick little cravin'  
My belly cried for man flesh  
and you know I must oblige

It wasn't long before my roommate came home  
Human flesh is mighty good  
but I think I drank too much blood  
ugh

heave Ho (repeat)
