### "Heavy And Leaving"

The days are piling up and I don't know that I can take it  
And freedom by design is so far gone I'll never make  
And everything's so heavy that I think I want to leave it  
And it's weight that I don't need I think it's time that I  
relieved it

CHORUS:

Heavy and I'm leavin', heavy and I'm gone  
It's heavy and I'm leavin' here, so long  
Heavy and I'm leavin', heavy and I'm gone  
It's heavy and I'm leavin' here, so long

Well outside ain't so good today it's windy and it's  
raining  
And it's been so bad so long that I can't say I see it  
changing  
The talk that I've been subject to seems mostly  
unrelated  
And these blues have been allowed to run/continue  
unabated

CHORUS

Discouraged fingers with no follow through  
No courage lingers like you want it to  
Discouraged fingers with no follow through  
Discouraged fingers with no love for you

Well these hands have always been too slow in the past  
Reluctance greeted nearly every task  
Now my old heart tells me he wants it done fast  
Discouraged fingers they resist to the last

CHORUS
