Migraine - Doctor, doctor, won't you help me please?
Migraine - Doctor, doctor, I'm down on my knees
Migraine - I feel it run from my toes to my brain
Migraine - Tried every potion, but it can't be tamed
Migraine
Migraine - Doctor, doctor, tearing my hair out?
Migraine - Doctor, doctor, what's it all about?
Migraine - I feel so nervous and I'm feeling sick
Migraine - My body's aching and I'm shittin' bricks
Migraine

Migraine - Doctor, doctor, won't you find a cure?
Migraine - Doctor, doctor, should I stay indoors?
Migraine - I go to parties and I just freeze
Migraine - Think I'm infected with a social disease
Migraine - Think I'm infected with a social disease
Migraine - Think I'm infected with a social disease
Migraine - Think I'm infected with a social disease
Migraine - Think I'm infected with a social disease

Migraine, migraine, migraine, migraine,
migraine!;
