"Roughest Neck Around"

Visit "[Roughest Neck Around](#)" on MotoLyrics.com

He got a real long reach in the derrick when he leans
He's been all around the world on the big oil rigs
With the welders and the trucks on the black gold rush
And the diesel burnin' Cat motors growlin' and the mud

You'd better hire him on, he's the roughest neck
around
He got the power in his hands to pull the dragons from
the ground
Yeah.

It's 35 below or its 98 above
And he's workin' thru it all, cuz baby this is what he
loves
Drives a hundred-fifty miles make sure his kids are
doin' fine
And he sees 'em when he can but he's married to his
iron

You'd better hire him on, he's the roughest neck
around
He got the power in his hands to pull the dragons from
the ground
Yeah.

He's a good hand to have on, and he's throwin' on the
tongs
Spinnin' chain and slidin' high side all night long
And he's tripping in his pipe, and he torques it good
and tight
And ya gotta figure Eddy's got his mud weight right

You'd better hire him on cuz he's better than the rest
He got the power in his hands and the dragons in his
chest
Yeah.

Well, his mind's a little tired but his back is plenty
strong
Got his green kings and filthy, frozen coveralls on
And he's drilling by the inch and he's hauling on the

winch

Takin' fuel from the tanks on his short change shift

You'd better hire him on, he's the roughest neck
around

He got the power in his hands to pull the dragons from
the ground

Yeah, you'd better hire him on cuz he's better than the
rest

He got the power in his heart and the dragons in his
chest

Yeah.

He brings the power to the people

Power to the people

Cuz he's the roughest neck around

He's pullin' dragons from the ground
