"What You Get"

Visit "[What You Get](#)" on MotoLyrics.com

Count to ten
Then relax for a while
Simmer down
And regain control
How you are
Sends the shivers to spines
We sit her and hope that it passes by.
And one day it will be fine

So what if you turn back
If taking's a waste of our time
You would leave us only the more upset
Cause that's what you get

Fall in line
And remember your place
Stand up straight
Don't forget the time
How the trials
Never taught you a thing
Its meaning is lost on ears shut tight
And one day it will be fine

So what if you turn back
If talking's a waste of our time
You would leave us only the more upset
Cause that's what you get
Cause that's what you get

I think you should know we've restored our faith
As that was the right thing to do
repeat

So what if you turn back
If talking's a waste of our time
You would leave us only the more upset
Cause that's what you get
Cause that's what you get
repeat
