He got a real long reach in the derrick when he leans
He's been all around the world on the big oil rigs
With the welders and the trucks on the black gold rush
And the diesel burnin' Cat motors growlin' and the mud
You'd better hire him on, he's the roughest neck
around

He got the power in his hands to pull the dragons from
the ground

Yeah.

It's 35 below or its 98 above

And he's workin' thru it all, cuz baby this is what he
loves

Drives a hundred-fifty miles make sure his kids are
doin' fine

And he sees 'em when he can but he's married to his
iron

You'd better hire him on, he's the roughest neck
around

He got the power in his hands hes pulling the dragons
from the ground

Yeah.

He's a good hand to have on, and he's throwin' on the
tongs

Spinnin' chain and slidin' high side all night long

And he's tripping in his pipe, and he torques it good
and tight

And ya gotta figure Eddy's got his mud weight right

You'd better hire him on cuz he's better than the rest

He got the power in his hands and the dragons in his
chest

Yeah.

Well, his mind's a little tired but his back is plenty
strong

Got his green kings and filthy, frozen coveralls on

And he's drilling by the inch and he's hauling on the
winch

Takin' fuel from the tanks on his short change shift

You'd better hire him on, he's the roughest neck
around

He got the power in his hands to pull the dragons from
the ground

Yeah, you'd better hire him on cuz he's better than the
rest
He got the power in his heart and the dragons in his
chest
Yeah.
He brings the power to the people
Power to the people
Cuz he's the roughest neck around
He's pullin' dragons from the ground
