Drowning in a devil's world
How that victim image served you well
Drowning in the holy wine
Pour it out and put your hand in mine

Ah Gabriel

Lying in another hospital bed
You feel so worthless
I think you're sick in the head
Crying, you say our love is gone
Move over now, you're the only man that I want

Ah Gabriel

In the sun baby, your sun
You're shining forever
I will always believe in you
In the now and the never
In the sun baby, your sun
Love shining forever
In the light all around you
In the now and the never

When you're drowning in a devil's world
Don't you give up on your girl
Because we will fly over hell

Ah Gabriel
