"Stay With Me"

Looked at the clouds today
Everyone will fall someday
Just like the dust will fade
Six feet deep in front of me

I wanna run away, seize the day
Not a sound or word to say
Dreaming never felt this way
Nothing short of apathy

Speak to me forever
Because Your voice is so pleasant
Stay with me forever
Because Your face is so present

Stared in the Sun today
Everything has turned to gray
Let go of all my pain
Soon enough i'll feel the rain

I wanna run away, seize the day
Not a sound or word to say
Dreaming never felt this way
All alone in apathy
