I feel that I've lasted a long line of broken hearts  
You say it's over  
I want to talk, I never thought I would fall apart  
But I still love you  
Give me the time, I'll show you I'm not your enemy  
Let's end the cold war

One night is all that I ask  
I'm ready to fight 'cause I want you back

A heart needs defending  
When love goes to war  
There's no happy ending  
When love goes to war

Tears in the night wash over eyes filled with memories  
Of your affections  
Where do I stand, I never planned on this misery  
I need protections  
You walk away so easily from the battle grounds  
Of my emotions

All's fair in passion and war  
But my disadvantage is I'm still in love

A heart needs defending  
When love goes to war  
There's no happy ending  
When love goes to war  
A heart needs defending  
When love goes to war

I don't want your sympathies  
Just give me what I ask  
If I appear to make demands  
It's only 'cause I want you back

All's fair in passion and war  
But my disadvantage is I'm still in love

A heart needs defending  
When love goes to war

There's no happy ending  
When love goes to war

A heart needs defending  
When love goes to war  
There's no happy ending  
When love goes to war

When love goes to war  
When love has no ending
