I feel that I've lasted a long line of broken hearts  
You say it's over  
I want to talk I never thought I would fall apart  
But I still love you  
Give me the time I'll show you I'm not your enemy  
Let's end the cold war  
One night is all that I ask  
I'm ready to fight 'cause I want you back

A heart needs defending  
When love goes to war  
There's no happy ending  
When love goes to war

Tears in the night wash over eyes filled with memories  
Of your affections  
Where do I stand I never planned on this misery  
I need protection  
You walk away so easily from the battle grounds  
Of my emotions  
All's fair in passion and war  
But my disadvantage is I'm still in love

I don't want your sympathies  
Just give me what I ask  
If I appear to make demands  
It's only 'cause I want you back
