What's up?  
...bang on this mother fucker  
Yeah, not do it for the...  
I do it for the underground, first  
Nigger, heard me?  
Yeah, oh, oh, oh, check!

Look, I am the one and only  
The one and only, one around a bunch of phonies  
The one and only, but I ran a bunch of ponies  
... a bunch of baloneys!  
..I fuck with them homies, to buzz a couple of sluts  
..start talking...  
Start .. if you know me!  
But no reason, ..no breathing  
I break mother fucking bone...  
Living a piece of your bone bleeding  
Get the skin on the meat of your bone...  
...whole lot of sparking, whole lot of.... and a whole lot  
of chopping  
..a lot of talking, yeah, nigger is ass

Chorus:  
I'm the one!  
No two, no three, no four, nobody above me!  
I'm the one!  
You thought hip hop died  
We was doing CPR just to keep it alive!  
No two, no three, no four, nobody above me!  
I'm the one!  
You thought hip hop died  
We was doing CPR just to keep it alive!

I am the one and only  
You can tattoo me with a number only  
And up here by myself is kinda lonely  
You want a beef, go ahead, homie, I'm kinda hungry!  
I can fill a grind down in my stomach  
No knives, no place, no forks, I'm kinda grungy  
Feeling like bees are surrounded by honey

Jack pot, the flow is cracked up above me  
Four hundred pounds woman back shot ugly  
Me and the homie... don't think it's kinda funny  
This is not a game but you're playing us for dummies  
We are both free agents, show what's the money!  
These other rappers only getting shine when it's sunny  
While we're lighting up the dark...  
Money in my hand and you ain't taking none for me  
But if you wanna ball, take the rock that you...

Chorus:

I'm the one!  
No two, no three, no four, nobody above me!  
I'm the one!  
You thought hip hop died  
We was doing CPR just to keep it alive!  
No two, no three, no four, nobody above me!  
I'm the one!  
You thought hip hop died  
We was doing CPR just to keep it alive!

..chilling with the best  
They wanna know the ice ain't freezing my chest  
Well, listen I'm not normal my blood boils,  
A ...and I still gotta feel it like a thermos  
And plus, when I'm writing my journal  
I leave birthmarks, yeah I gotta burn it like...  
Living, smelling like rotten flesh  
If you don't.. I already died  
I'm hot to death, throw the game, and I'm not the...  
Put a spray shirt on you, so it's nothing when I pop your  
chest, yes!  
Who's next? I don't care who might be  
Cause nobody right now can do it like me!  
Plus, you all sound the same ..go ahead and throw out  
my chain  
...call your name, I spit fire ...the flames!  
But I pray to God that I don't abuse my power  
Keep praying, I can spit fire like...  
I handle beef in my trousers, I'm chilling  
With my heart on my sleeve, I don't care how you all  
feeling!  
... a couple of shots to let these boys lean back and do  
the... away!  
You can see me form a block away  
I'm shining, a couple clips with me, boy!  
I'm grinding, no game to rap, no set to clean  
No heart burn, but I feel your chest full of flames  
But your heart burn when I hit your chest with 'em  
flames!  
And I don't know why I keep testing my aim

They keep asking if he's insane, I might be  
You can go ahead and .. I've seen my brain  
But you might not like what you see when you do it  
Like you all think I'm .. right now, it's just music!  
These dudes don't want it with me  
I do it like the accent in Spanish, and put it under the  
sea  
B, C, I'm on a whole different level ...  
And you all think I'm...  
I'm playing with fire, you think I got control of the devil!  
But watch how I control what you're thinking  
Like you all think I'm spitting right now, I'm just  
bleeding!

Chorus:

I'm the one!  
No two, no three, no four, nobody above me!  
I'm the one!  
You thought hip hop died  
We was doing CPR just to keep it alive!  
No two, no three, no four, nobody above me!  
I'm the one!  
You thought hip hop died  
We was doing CPR just to keep it alive!
