take your best blow teacher
on what's right to say
deal em real slow teacher
so they forget to pray
let's pray
Chorus
lets let get right down to the bone
we can't get any deeper now
do we know how far we are from home
can't get any farther now
are we going to be alone with our friends
i guessi see it now
we all must sit here and wait till the end
the end, the end, the end
make 'em like snow preacher
see a brighter day not grey
but where are we gonen go preacher
when there is no way, no way
Chorus
