True, sing it to you my baby,
True, sing it to you my baby, yeah
Sing it to you my baby yeah, yeah

Call it stupidity, all the casual of the teen of your love
I had no right to be, your man, still playin'
You gave your heart to me, and I dragged it all through
the mud
To think you thought of me as someone you trust

I'm feelin' pityful, 'cause you're so beautiful,
You are my right or die, how can I let you go
I need to know, what can I do, I swear that I'll be good
to you,
Give me the chance

Chorus:
Said I thought if I just told her a lie
She wouldn't walk away, she wouldn't say bye bye
I really love her but I heard her rely
Said I play the game now things ain't the same with us

You might be missing me, or maybe don't give a damn
I understand you know, right now, but I'll stay
How broken guilty girl, the saddest day of affaires
I've seen your picture but you're really not there

I'm feelin' pityful, 'cause you're so beautiful,
You were my right and doubt, how can I let you go
I need to know, what can I do, I swear that I'll be good
to you,
Give me the chance

Chorus:
Said I thought if I just told her a lie
She wouldn't walk away, she wouldn't say bye bye
I really love her but I heard her rely
Said I play the game now things ain't the same with us,
with us, with us
Now things ain't the same, with us, with us, with us
Now things ain't the same, with us, with us, with us

Now things ain't the same, with us, with us, with us

Where we can stop, to end like this, relationship, I don't
why

Let it spin, spin it down

I've been thinking about the things that I said and did
I shouldn't have done it, cause now things just ain't the
same

More than you can say

Chorus:

Said I thought if I just told her a lie

She wouldn't walk away, she wouldn't say bye bye

I really love her but I heard her rely

Said I play the game now things ain't the same with us

Chorus:

Said I thought if I just told her a lie

She wouldn't walk away, she wouldn't say bye bye

I really love her but I heard her rely

Said I play the game now things ain't the same with us,
with us, with us

With us with us with us, with us with us with us, ooo, oh
nowâ€¦!
