"Master And Servant"

Visit "[Master And Servant](#)" on MotoLyrics.com

Do you really think you're getting over me
You should know by now you'd have to more than pray
I can tell you all the things I'd like to do
But I think I'll take it slow and painful
Just the way you do

Lets play Master and Servant its my turn to love you
Lets play Master and Servant like you do
Lets play Master and Servant its my turn to love you
Lets play Master and Servant like you taught me to

You taught me to understand the pains of love
I've learned more about myself my fears through you
Teacher Teacher is it true I'm scaring you
I've just taken what you taught me let me painfully love
you

Lets play Master and Servant its my turn to love you
Lets play Master and Servant like you do
Lets play Master and Servant its my turn to love you
Lets play Master and Servant like you taught me to

Come play with me give me love
painfully
Give me love
Set me free
From this place my fear of pleasuring myself
