Chorus

Right from the start
You shot me through the heart
You took my soul
You took it all
Don't lose my heart in the fall

Verse 1

In the cold hard days of winter
You came and woke my dreams
Helps me to remember
Life isn't what it seems

Verse 2

When the spring flowers came
You warmed my lonely bed
You knew it was no game
You taught me love instead

Chorus

Verse 3

On long hot summer nights of summer
Lying in my embrace
Watching as the sun sets
Dying for your face

Verse 4

And now the years have turned around
You've made me a happy man
I thank god for what I've found
I've found my promised land
