If you happen to walk by the door and see  
The door is cracked, don't bother looking  
My letters are on the kitchen table  
For you to read  
I'm sorry I wasn't the daughter you needed me to be

Now I dream  
Carbon monoxide  
Set me free  
Carbon monoxide  
Window to eternity  
Please forgive me

I want to dance with you again  
The only thing keeping us apart is my skin  
I'll just cut and set myself free  
If that's the only way you can be with me  
Now I dream  
Carbon monoxide  
Set me free  
Carbon monoxide  
Window to eternity  
Please forgive me

Your body's been dead since September  
But I still remember  
My blood whispers your name  
My spirit waits for you to take me away

I don't want to live one more day  
Nothing left inside me is sane

Carbon monoxide  
Carbon mooxide  
Forgive me
