I will throw myself head first from the carriage for you
and
When they lowered your body into the ground
They lowered my heart too
The people have all come and gone
Seen the grand funeral show
They're all in their warm homes tonight
I'm still here I'll never let go

I will stay forever here with you by your side

The snow falling down, I can't feel my heart
But I will stay, your Snow White
Frozen in time...
Sound asleep by your side

I'm bleeding and screaming
I'm crying and dying for you to open your eyes
Can you feel me? Are you near me?
I'm still alive
