We are Americans.
We are Americans, oh yeah!
We carry great big guns
'Cause we are Americans!

Oh yeah!
We're strong (we're strong!)
And we're free (we're free!)
We are Coke, We are Pepsi

'Cause we are Americans
We are Americans.

What we'd like to do for you right now, is a short history
of the United States of America. First of all a short
scene depicting the United States of America, and their
diplomacy.

Hey pal, do whatever I tell ya!

No!

I got a really big gun here...

All right then.

Yeah! Secondly a short scene depicting the United
States of America, and their economy, yeah!

Hey pal, gimme all your money.

No!

I got a really big gun here...

All right!

And thirdly a short scene depicting the United States of
America, and I'm sure we all understand their foreign
policy, yeah!

Hey pal, let's go fight a war in Iraq.

Okay! Where's Iraq?

Yeah!

And finally a short scene depicting the United States of America, and the settlement, the settlement of that great nation, we know and love as the USA, yeah.

Hey you Indian. Here's a bunch of glass beads, gimme all your land.

No.

I got a great big gun here.

Nice beads!

We are Americans
We are Americans, ah yeah!
We carry great big guns, yeah!
'Cause we are Americans

We're strong (we're strong!)
And we're free (we're free!)
We are Coke, We are Pepsi

And we wear
Canadian flags
When we travel
On our bags

'Cause we are Americans (ah yeah!)
We are Americans (c'mon everybody, make like you're at Woodstock, yeah!)
We are Americans
We are Americans

We are Americans, Here we go!
We are Americans
Everything I do... I do it for you.
