

## Coronatus "Hot & Cold"

Visit "[Hot & Cold](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You have retired  
In a room that's just for you  
You don't talk all day  
Want to be left in peace to build up strength

You know you're sexy  
And that you're popular  
You're acting so cool  
If I sat next to you I would freeze like ice

But when the day grows older  
And when the night gets colder

You suddenly approach to me  
And as you treated me, I will now treat you

I want to make you hot, I'll make you hot  
And right now when you're hot I'll leave you cold, I will  
leave you cold  
I am gonna make you hot, I'll make you hot  
And it's cool that when you're hot I'll leave you cold, hot  
and cold
