I am doin' fine now
I never cry now
In fact I feel no pain at all

You sound the same now
How's? What's her name now?
I am just surprised that you would call

It took a long time, long time
But I was only wounded by your love
I was only wounded
I can't fall in love again

I am all in place now
A quieter space now
There's not so many highs or lows

No more confusion
No brand illusion
I just sat back and watch them go

It took a long time, a long time
But I was only wounded by your love
I was only wounded
I can't fall in love again

I don't think that we can be just friends
Baby, this is how our love began
'Cause you'll only shoot me dead again

I was only wounded by your love
I was only wounded
I can't fall in love again

I'm doin' fine now
I never cry now
In fact I feel no pain at all
