The trees are on fire  
But only a few  
Their smoke, their breath  
Reminds me of you  
And the fire at st jude

All of this when  
I thought you were winning  
Only something up ahead  
Your arms bent by your side  
A questioning pose  
Before an answer arose

At the fire at st jude  
At the fire at st jude  
The red engines roaring  
Lights spinning  
Everyone's sick

Wheres my baby

The fire quick spread  
So stand by and watch  
It form ahead  
Taking on arms  
But your kindness  
Disagrees with its evil  
Your kindness is like water

At the fire at st jude  
At the fire at st jude  
The red engines roaring  
Lights spinning  
Everyone's sick  
Wheres my baby  
Wheres my baby  
Wheres my baby
