You know that it fades away
Well all have a way
To be replaced
To be replaced
To be replaced
To be replaced

With someone
Brighter than you
With a future
You can turn to
You can turn to
You can turn to
You can turn to

And i'll forget everything
Until i see someone

Burning like me
To take it on
To take it on
To take it on
To take it on

You know that it fades away
We all have a way
To be replaced
To be replaced
To be replaced
To be replaced
To be replaced
To be replaced
To be replaced
