Take me high above
Into mystic dreams
Hold me in your arms
I'll do magic things

We don't need the moon above
Not the way that
I'll make love to you

[CHORUS]
Cause I'm a fire sign
While the planets change
It's the perfect time
To watch my fire burn
I'm a fire sign
And you blow my mind
You blow my mind

Put me on a cloud
I'll drift far away
If you're in the dark
I'll light up your way

If you look into my eyes
Suddenly, your love
Will start to rise

[Repeat CHORUS]
