### **"Hope & Validation"**

Visit "[Hope & Validation](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Plans and preparations are decided in vain  
Think we've seen enough now  
Hope and validation are united again

Higher than the buds that bloomed  
I've seen it hanging in your face  
You may need time to think it over

Set a new direction for the harvest ahead  
Think we've seen enough now  
Built the resurrection of a bond nearly dead  
Seen enough now

Higher than the windswept moon  
I've seen it hanging in your face  
You may need time to think it over

Plans and preparations are decided in vain  
Hope and validation are united again  
Set a new direction for the harvest ahead  
Built the resurrection of a bond nearly dead

Think we've seen enough now  
Think we've seen enough now  
Think we've seen enough now  
Think we've seen enough now
