"Wish You Well"

Visit "[Wish You Well](#)" on MotoLyrics.com

Up so early feels so bright
I didn't get much sleep last night
Freight train rattled through my head
Whistle blowin love is dead, is dead

Heart attack by fear and doubt
Wont be long till the truth comes out
First impressions never last
Lovers bonds they hold so fast

Restless future burning bright
Past is holding on so tight
Never heard the warning bell
And i just wanna wish u well
I just wanna wish u well

Welcome swallows dip and swing
Take the cue from the slightest thing
Rolling fog into my room
Why did you give up on me so soon, so soon

Restless future burning bright
Past is holding on so tight
Never heard the warning bell
And i just wanna wish you well
I just wanna wish you well
I just wanna wish you well
I just wanna wish you well

Why did you give up on me so soon
'did you give up on me so soon

I just wanna wish you well
I just wanna wish you well
