Your smile gets me every single time I see you
Your eyes take me away
I don't really know what this is gonna lead to
But it's like I'm floating in space

You take me somewhere
That I've never been before
There's a whole new place waitin'
When you open up the door

You're out of this world, I knew that you could make it
You didn't have to fake it, you're never coming down
You're out of this world, you can't get any better
We're gonna last forever, keep your head up, don't
look down

You're out of this world
(Out of this world)
Out of this world
(Out of this world)

The stars like diamonds up above our heads are fallin'
I know that wishes come true
Your voice, across the universe you were callin'
Like a song from out of the blue

We're flyin' so high, we're almost at the top
But as long as we're together I never wanna stop

You're out of this world, I knew that you could make it
You didn't have to fake it, you're never coming down
You're out of this world, I knew that you could make it
You didn't have to fake it, you're never coming down

So many dreams to fly to
And I'll be right beside you
We're getting closer to the sun
(They're shinin')

We'll let the moon astound us
A million stars surround us
(Both)

Wishing on each one

You're out of this world, you can't get any better
We're gonna last forever, keep your head up, don't
look down

You're out of this world, I knew that you could make it
You didn't have to fake it, you're never coming down
You're out of this world, you can't get any better
We're gonna last forever, keep your head up, don't
look down

You're out of this world, I knew that you could make it
You didn't have to fake it, you're never coming down
You're out of this world, you can't get any better
We're gonna last forever, keep your head up, don't
look down

You're out of this world, I knew that you could make it
You didn't have to fake it, you're never coming down
You're out of this world, you can't get any better
We're gonna last forever, keep your head up, don't
look down
