She picked me out of the millions
Thumbing an OED
Dressed me down to civilian
Cracked the code on the Rosetta Stone
Said the word for alone is "alone"

My before and after her x3

We found that R Mutt was truly
Some work of genius
She helped my best friends see through me

Said the church of his holiness lied
This world's no dead end it's park and ride

My before and after her x3

Now I'm dangerously reprogrammed man
Like that guy in the Manchurian

My before and after her x3
