On the downside standing all alone bracing myself
Hoping it won't fade
And I remember when I could open up my eyes and see
your face
You're still there, miles away...yeah-eah

I can't stop the world but maybe I can slow it down this
time
(Maybe I can slow it down this time)
'Cause I...I've played it back millions of times but
thoughts collide

On the downside standing all alone bracing myself
Hoping it won't fade, hoping it won't change

Hoping it won't change...

And now all that I have are these pictures in my head, I
have to close my eyes to see
And nothing's ever seemed so incomplete on both
sides of myself
I'm lost and displaced
(Facing in both directions...)
And I can't stop the world but maybe I can slow it down
this time
I've played it back millions of times but thoughts
collide...

Aghhh!
