never once captured the air as it past
never found meaning their picture nine to fives
stay here
wait until you arive
till it can be our night
i've forgotten who told me

your right
ill look around
right
ill look around

and if someone tipped us off

to the way things ran
our missing words from disbelief
would outway our recent arrogance
anyway dont mind telling
your right
ill look around

push me, push me away
and ill go home
tell me tell, me to stay
and ill go home
