Waiting for the moon to come and light me up inside  
And I am waiting for the telephone to tell me I'm alive  
Well I heard you let somebody get their fingers into you  
It's getting cold in California  
I guess I'll be leaving soon

Daylight fading  
Come and waste another year  
All the the anger and the eloquence are bleeding into  
fear  
Moonlight creeping around the corners of our lawn  
When we see the early signs that daylight's fading  
We leave just before it's gone

She said "everybody loves you,"

she says, "everybody cares"  
But all the things I keep inside myself  
they vanish in the air  
If you tell me that you'll wait for me  
I'll say I won't be here  
I want to say good-bye to you  
Good-bye to all my friends  
Good-bye to everyone I know

Daylight fading  
Come and waste another year  
All the the anger and the eloquence are bleeding into  
fear  
Moonlight creeping around the corners of our lawn  
When we see the early signs that daylight's fading  
We leave just before it's gone
