You ask me how much I need you
You wonder if I'm worth giving all your trust
Every dream yet to be fulfilled
Every breaking secrets you've told
You wonder If I ever see another woman
If I ever looked at their backs or fronts
There's nothing to worry about
Cause babe, nothing's ever happened
Behind you or behind your eyes
And if one ever happened, you already know

That in a crowded room
In a world of strangers
In the shadow of the moon
In every dream of a different woman
Babe, I swear, I'll always find you

In careless warm hands,
Needy of someone to hold
I'll always find your tender touch
In all the hottest babes on TV
With a sad look on their faces
I'll always find your smile
Ain't no doubt, I'll always find you

No matter how far you are, I'll travel
No matter how deep you've gone

I'll dig until I reach the bottom
Don't care how long it takes
I've got all the times in the world
I made a promise, I'm sticking to it
For better or for worse, stormy or blue
I'll always find you, wherever you are

Whether in a crowded room
In a world of strangers
In the shadow of the moon
In every dream of a different woman
Babe, I swear, I'll always find you

In careless warm hands,

Needy of someone to hold
I'll always find your tender touch
In all the hottest babes on TV
With a sad look in their faces
I'll always find your smile
Ain't no doubt, I'll always find you

I set my life on the line
That I'll always make you smile
Give love and hope until you shine
Make your dreams come true
Until my last day on earth
