

Country Coalition "Time To Get It Together"

Visit "[Time To Get It Together](#)" on MotoLyrics.com

There's a whole lot of talk
Going down among my people
And the world hangs on every word

I guess people are just
Trying to be people
That's the way to live
From all I've heard

[CHORUS]
And all we need is a little
More time to get it together
There's a whole lot of people
Been trying to get it together
Like you and me
That's all we need to be free
Just a little more Time
To get it together

There's people down and out
On your street who need helping
Some folks just don't know
What it is they need

They do love, thank God
Brother love is a blessing
Trying to be much more
Than just a mouth to feed

[Repeat CHORUS 3x to fade]
