My girl goes to sleep at night  
At the end of a long, lonely day.  
I know things will turn out all right  
When I come home to stay.

True love is so very strong  
Time cannot fade it away  
I will love you in a song  
When I'm far, so far away.

Many miles may separate us  
Stormy clouds bring rain,  
But loneliness will be forgotten  
When we meet again.

My girl goes to sleep at night  
At the end of a long, lonely day.  
I know love will turn out all right  
When I come home to stay.
