Do you wanna ride on my death machine?

Fucking die in it if you dare

Yeah yeah...

Yeah I kill what I need

Yeah I kill what I needed

When I die won't you berry me

Cause I berried you baby deep in me

Yea yea...

Cut it open what's inside

Then you'll drag me back there

Wanna know baby said baby

Now I know

Never know never know

Cut it open say pretty please

You drive it the yea I wanna know everything

I wanna know

Never know never know

And when I die won't you berry me

Cause I berried you baby deep in me

Yeah when you fall for the garbage man

You wind up in the garbage
