Hey

Busty co-eds Live, Live, Live
You'll crash that car man if you drive
1 800, 1 800, 1 800 wired

o b g y g y n
Triple x x x
Time for you and me and lots and lots of meaningless
sex
Erotic city, VIP,
That pornorific girl is me
i came on you, i faked it
Hes still tied to the bed

Adorable, affordable, guaranteed discretion
In the story of my life, youll barely get a mention

I see paris
I see france
I can see your underpants
Oh, i see paris
I see france
Oh, i hear London Calling

Now you've come so you can rip them off
Oh baby i know where you live

I'm overated, desacrated, still somehow illuminated
I know i got a screw loose, just meet me in the bedroom
I know you didnt swear to punk , that you would never
sell out
Just like that ad in playboy, that was all, it didnt count
i love the way your mouth fits mine
Oh 1 800 hes so fine
I'm infared, im in your head i wont be leaving soon

I see paris
I see france
I can see your underpants
Oh, I see paris

I see france
I hear London Calling

Now youve come please baby rip em off
oh baby I know where you live
oh, i can smell her on you everywhere
Oh baby i can not forget

And I'm coming for you!

Hey gabba gabba gabba baby
Hey gabba gabba gabba
I know where you live
Hey gabba gabba gabba
(shut up shut up shut up)

Baby i know where you live
(shut up shut up shut up)
Im a little bit older than you than you than you
Than you, than you

You know how when your phone went dead
Well that was me on the other end
You know how when your phone went dead
Well that was me on the other end
And when i touched your limosene I really felt a vibe
It said i love you baby girl you know cause I can read
your mind

Shut up shut up shut up
And im comin comin comin for you
(for you, for you)
(shut up shut up)
I know where you live
Hey gabba gabba gabba
(shut up, shut up)
I know where you live
I'm a little but older than you
(than you, than you)
I know where you live
