She tears the hole up even wider
It's all the darkness up inside her
Holy oh yeah
Your mine your everything is mine with or without a
doubt
With or without a doubt
Where the fuck were you when my lights went out
Yeah you don't want to look at it
Yeah you don't want to look at it
With or without a doubt
Come on and let me out
Yeah where the fuck were you when my lights went out?
Yeah you don't want to look at it

Yeah you don't want to look at me
Come on let me out
Come on and let me out
Yeah tie a soul to you when your life goes down
Time flies when you're falling down
I spread my rot all over this town
And everyone of you looks the same
And everyone of you feels the same
