I know it
I can't feel it
Well I know it enough to believe it
And I know it
I can't see it
But I know it enough to believe it
Bet on you, bet on me(?)
My bitter half has bitten me
Bet on you, bet on me
Sleeping with my enemy
Myself
Myself
The pieces of jennifer's body
Found pieces of jennifer's body
Found pieces of jennifer's body
Just relax, just relax, just go to sleep
Just relax, just relax, just go to sleep
You're hungry but I'm starving
He cuts you down from the tree

He keeps you in a box by the bed
Alive but just barely
He said "i'm your lover I'm your friend I'm pure"
And he hit me again
With a bullet
Number one
Kill the family
Save the son
Himself
Himself
Found pieces of jennifer's body
Found pieces of jennifer's body
Found pieces of jennifer's body
Just relax, just relax, just go to sleep
Just relax, just relax, just go to sleep
Now it's mine
