

Coven 13 "Red"

Tonight I saw you
Standin all alone
You looked like you were
Just waiting for me
But when I saw you
Something came over me
My heart beat in time with yours
I knew tonight was the night

Red, red red red
Red, was the color
That I gave to you
Red was the color (was the color of sex)
That you gave me

So come on with me
IÂ'll take you higher
Than youÂ've ever been before

Just hold on tight, just hold on
Then you, and then I and then we
And then me

Red red red red
Red, was the color (the color of life)
That I gave to you
Red, was the color (the color of death)
That you gave to me
Red was the color that I gave to you
Red was the color that you gave to me
Your red all over me
Your red all over me
Your red all over me
Your red all over me
